Organigram

Main purpose

Improve people's quality of life.

Mission

The Fundación Universitaria de Ciencias de la Salud is a Higher Education Institution, that responsibly assumes the integral education of the student, in the field of science, investigation, technology and humanities, with fundamentals of academic excellence, ethical, social and scientific sense, led by a highly qualified team, in order to allow the objective and rational analysis of the problems of the community and contribute in improving their quality of life.

Vision

By 2030 the FUCS will be recognized nationally and internationally as a prestigious institution in the formation of human talent, supported by competitive, innovative and sustainable processes.

Institutional Values

En At the Fundación Universitaria de Ciencias de la Salud, we recognize multi-diversity as a fundamental right of the humankind. That is why:

- We treat human beings with respect without any discrimination, considering them as an integral part of society.
- We assume scientific rigor as the search for excellence in the activities and services provided by the Fundación Universitaria de Ciencias de la Salud, in accordance with nationally and internationally recognized standards.
- Our activities are characterized by our commitment and dedication with responsibility, efficiency and effectiveness, in the performance of duties and tasks acquired in the institution.
- We stand out for honesty, transparency and rectitude, taking into account the norms of good conduct and justice.
- We foster solidarity in order to create social links which lead to improve people's life quality in different contexts among the community.

A portrait of Sergio A. Parra Duarte, the Rector of FUCS. He is a middle-aged man with grey hair, smiling warmly. He is wearing a dark blue suit jacket, a light blue shirt, and a blue and white striped tie. A small circular emblem is pinned to his left lapel. The background is a blurred outdoor setting with greenery and a building.

Message from the rector

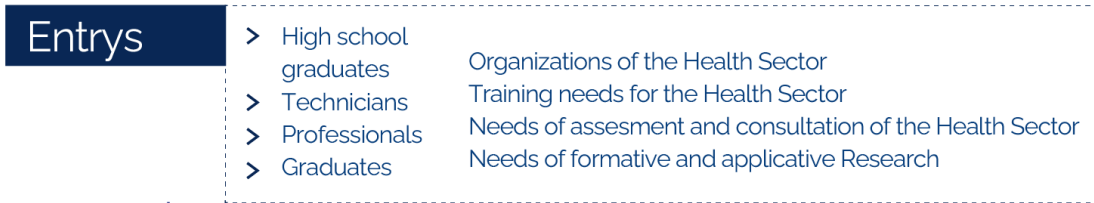

Dear FUCS community, during 2023 we worked as a team to get closer to the projected vision for the year 2030, which states that we will be recognized nationally and internationally as a prestigious university in forming human talent, supported by competitive, Innovative and sustainable Processes.

This work is reflected in the indicators of our commitments such as Academic Excellence, Environmental and Social Responsibility, and sustainability and growth.

I invite you to get acquainted and check this bulletin, which summarizes the efforts of the institution during the year 2023 and the consolidation of the work of the previous years with results which fill us with satisfaction and motivate us to continue constructing our mission in favour of improving the quality of life of the population of our country.

Sergio A. Parra Duarte

Statistical Summary

Teaching

The FUCS considers teaching as an educational, specific, intentional and planned activity to facilitate students to: appropriate knowledge to offer alternative solutions to community problems, and contribute to improve their quality of life. The quality of teaching requires knowledge of the subject and competence to teach it.

Statistical Summary

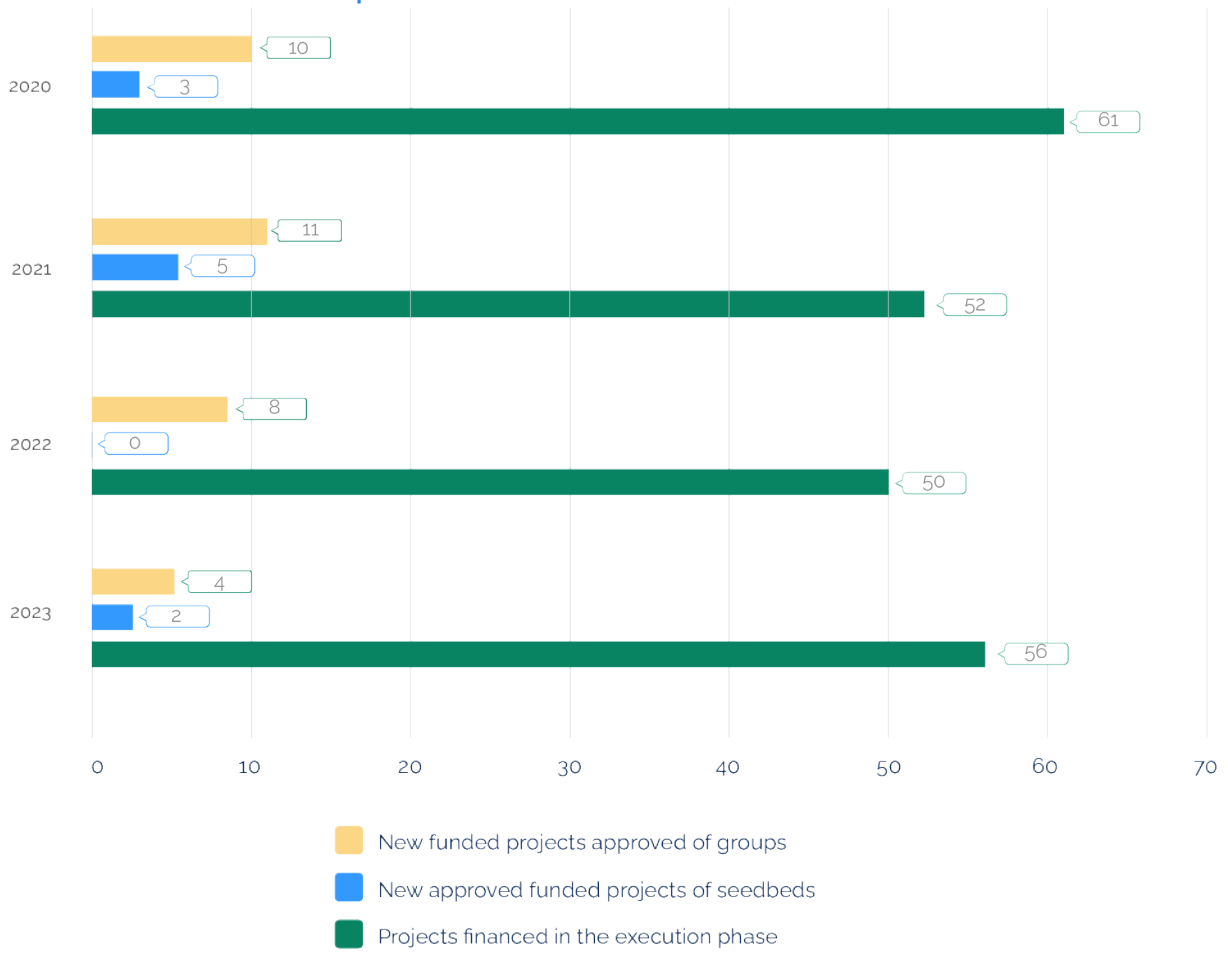

Research

The FUCS recognizes research as a structuring element that contributes to the integral development of the student. Research is a continuous and permanent process that the academic community carries out, in order to produce knowledge, identify realities, causes, effects, as well as socializing results.

Research is part of the teaching function. Research is promoted as a transversal component of the curriculums.

Statistical Summary

Internationalization

The Fundación Universitaria de Ciencias de la Salud seeks, through the actions developed in internationalization, to generate ties of cooperation and integration with other ISE at a national and international level, in order to achieve greater presence and visibility in an increasingly globalized world.

Featured Events

As follows, we show the most relevant events and portray facts in which FUCS took part during 2023.

Launching of the book: 'Seguridad del Paciente Quirúrgico'

August 16, 2023

The Launching of the book: 'Seguridad del Paciente Quirúrgico' was held at Jorge Gómez Cusnir Auditorium. It counted on the attendance and participation of FUCS and Infantil universitario de San José Hospital Chief officers, as well as some collaborators and external guests. During the event, a special recognition was given to the inter-professional work in the security of the surgical patient.

ExMe FUCS Congress

August 31, September 1 and 2, 2023

The first congress of experts in Aesthetic and Anti-Aging Medicine was held in Santa Marta, Colombia. This space involved the most well-known national and international specialists in the aesthetic medicine field.

Attendees accessed workshops, demonstrations and insights of aesthetic treatments tendencies, and were granted with a university certificate with CME, backed-up by FUCS.

30th Anniversary of Cytohistology

September 15, 2023

It is the 30th anniversary of Cytohistology, with the attendance of the dean, teachers, graduates and students of the program. The social event was held at Jorge Gómez Cusnir Auditorium at Infantil Universitario de San José hospital, in which the program pathway was commemorated as part of the school of Technologies in Health Sciences.

National Congress of Perinatology and Foetal Maternity

October 26 to 28, 2023

FUCS took part in this congress held in Cartagena and was organized by the chief officers at Federación Colombiana de Asociaciones de Perinatología y Medicina Materno Fetal FECOPEN'. FUCS, as University ally, participated in this congress.

ENSI 2023

October 26 and 27, 2023

The seventh National seedbed congress research ENSI was held and has become a space which allows visibility of science, technology and innovation products reached at seedbed projects and frameworks of research of IES. ENSI meets the needs of national sceneries to apply the formative research and under and postgraduate students' formation, by means of academic spaces which favours dialogue and argumentation. In the same way, the spaces foster students' curiosity, show our new tendencies in research and in collaborative working networks.

18th World Congress of Cervical Pathology and Colposcopy of the IFCCP

November 16 to 18, 2023

FUCS participated in the 18th World Congress of Cervical Pathology and Colposcopy of the IFCCP held in Cartagena, where well-known international teachers took part. The congress aim is to perform an update in the assistance against cervical cancer and advances in the specialization practice. During the congress, a special recognition was given to Dr. Carlos Pérez, Director of San José Hospital, in commemoration of his presidential period at the IFCCP.
